

Petrochemical Transport Engineering Co.

Compatible Liquid & Gas Goods for Continuous Transport by Tankers

No.	Goods	Liquid /Gas	Compatible Hazardous Goods	Requirements before Loading (Washing out, drying, Blowing, Purging)
1	Pyrolysis-Gasoline-Hydrogenated (P.G.H.)	Liquid	Benzene, Xylene mixture, Hexane, C6, C7	Does not need
2	Ethylene Glycol (M.E.G.)	Liquid	All Hazardous Liquid Goods	Please washing out tanker by water and drying by blowing air
3	Vinyl Acetate (V.A.)	Liquid	Benzene, Pyrolysis-Gasoline-Hydrogenated, Orth xylene, Para xylene, C6	Please drying tanker by air and nothing of previous goods aren't seen
4	Styrene	Liquid	Benzene, Pyrolysis-Gasoline-Hydrogenated, Orth xylene, Para xylene, C6	Please drying tanker by air and nothing of previous goods aren't seen
5	Xylene mixture, Orth xylene, Para xylene,	Liquid	Benzene, Pyrolysis-Gasoline-Hydrogenated, Vinyl Acetate	Please drying tanker by air and nothing of previous goods aren't seen
6	Propylene	Gas	Just Propylene	Please purging tanker before loading another gas goods
7	Butadiene	Gas	Just Butadiene	Please purging tanker before loading another gas goods
8	Butane-1	Gas	Just Butane-1	Please purging tanker before loading another gas goods
9	C4-Cut. C3+ & Pentane	Gas	All Gas Goods	nothing of previous goods aren't seen
